

The TRUTH of Universal Background Checks

This vague and confusing proposed law is the handiwork of powerful and wealthy out-of-state political interests, masterminded by New York Billionaire Michael Bloomberg. He wants to use his fortune to impose his will on Mainers.

Most of the people collecting signatures for this initiative were not volunteers, but employees paid for by Bloomberg. Many of them are not even from Maine, and traveled to Maine specifically for the purpose of signature gathering. This is not a Maine grassroots effort.

*Learn the TRUTH!
Universal Background Checks
are BAD for MAINE!*
